

Price "Dictation" By Bakers Denied

14-Cent Standard Bread Price In Ont., Quebec Held Reasonable

By John Leblanc

OTTAWA, Feb. 28.—(CP)—Bakeries controlled by flour-milling companies do not "dictate" bread prices charged by other bakers, the Commons price committee was told yesterday.

Charles Hutton of Toronto, former price board bakery administrator and now secretary of the Ontario Bakers' Association, denied suggestions that such bakers do formulate the general price of bread, though he cited one instance where they had influenced it.

That session was the setting of a 14-cent-a-lb price in Ontario last September to replace the 10-cent selling price after bread decontrol. Mr. Hutton said Lake of the Woods Milling Company had decided on a 14-cent price for its Toronto bakery—Brown's Bread—and this had had a considerable bearing in keeping some bakers from going to 14 cents.

OTHER EVIDENCE

Other evidence by Mr. Hutton:

1. The present 14-cent standard price of bread in Ontario and Quebec is "reasonable."
2. He knew of no occasion when bakers conspired to fix prices, or even discussed the establishing of prices.
3. He had no knowledge of any "dictation" by bakers against retailers who refused to follow their "suggested" retail prices.

To Increase Wages Many Govt. Workers

OTTAWA, Feb. 28.—(CP)—Finance Minister Abbott announced yesterday that the salary scales of about 515 employees of the federal government, ranging from janitors to clerical, stenographic and typists, will be increased.

The increase, retroactive to Oct. 1, 1947, were linked with the December announcement of Prime Minister Mackenzie King that the government was planning raises for clerical, stenographic and typists.

The increase, retroactive to Oct. 1, 1947, were linked with the December announcement of Prime Minister Mackenzie King that the government was planning raises for clerical, stenographic and typists.

She and her parents were the first settlers to cross the Sturgeon River. Her father, the late D. H. Wilson, built the first bridge across the river.

In 1885 Mrs. Bailey and her parents fled to Fort Edmonton to escape the Indians during the Riel Rebellion.

In 1887 she married Mr. Bailey to become the first Nanaimo bride. Mr. Bailey died in 1923.

She and Mr. Bailey moved to what is now Edmonton when there were only 50 settlers here. She was 17 years before the town was linked by rail.

She is survived by seven daughters, Mrs. H. Dieth, Tacoma; Mrs. D. DeWitt, Regina; Mrs. W. Stevens, West Salisbury; Mrs. W. McFarlane, E. Broder, Mrs. W. Bates and Mrs. S. Bailey, all of Edmonton; two sons, Robert and Edwin, Nanaimo.

Funeral arrangements will be announced later.

AFTER TWO YEARS OF PAIN

SAN MATEO, Cal., Feb. 28.—(BUP)—The doctors thought Mrs. Lillian Arthur was joking when she complained something must have been left inside her after an operation two years ago.

But when they operated on the 30-year-old mother of six children yesterday, they found a surgical mass, 12x14 inches, in her abdominal cavity. The tumor bore the monogram "Marion M. Hupp, Bremerton, Wash."

The tumor, really wrapped around Mrs. Arthur's intestines, was found by Drs. Henry Brown and Lawrence Martin who performed an exploratory operation to find out what was wrong with Mrs. Arthur. She had complained of pains and swelling since a caesarean.

Western Europe Fears Next Communist Move

By John M. Highower

WASHINGTON, Feb. 28.—(AP)—A growing feeling of insecurity among the countries of Western Europe, as a result of the Communists' taking power in Czechoslovakia, was reported by administration officials yesterday.

And they said United States policy on European alliances would be reviewed to see what might be done to make Western Europe feel more secure.

This was disclosed as Representative Hiram Bingham, D-C.I., offered a resolution proposing that the United States form military pacts with "freedom-loving nations"—a step that has been urged by Bernard Baruch and several others.

Dorn told the house of representatives "the getting tired of national defense" I think we should have some national defense.

Diplomatic authorities here said the Czech crisis has given new importance to the security question in the Anglo-French-American zone now under way in London on the economic and political future of Western Germany.

American officials said Western Europe's concern naturally was based on uncertainty over what Soviet-directed Communism might do next. Most authoritative estimates here are:

- 1. In Eastern Europe, the next Soviet move to consolidate power will be in Poland, which, like Czechoslovakia, has enjoyed a considerable degree of independence and freedom from Communist pressure since the end of the war.

TO CREATE CHAOS

2. In Western Europe, it is expected that the Russians soon will throw their Communist machines in motion in France, Italy or both. There to create chaos and anarchy, if not overthrow, the governments. They tried this last December.

Since the governments officials are convinced that the Czechoslovak action has cost the Communists

an operation two years ago when she gave birth to twins.

"I went back to the clinic and complained," she said, "and even jokingly suggested the doctor must have left his hair or his scissors in me."

THREATS SUIT

Mrs. Arthur's husband, Frank, threatened to sue the hospital for the mistake. He said his wife had gained from 250 to 150 pounds since the death of Mrs. Alex Heston and her 27-year-old daughter, he believed the death of some form of poisoning.

The mother and daughter died Wednesday within half-an-hour of each other. Stomach contents have been sent to Victoria for analysis.

Miss Leach was soon to have been married. Two brothers and a sister, now living in Edmonton, are expected here tomorrow.

Believe 2 Women Poison Victims

GRAND FORKS, B.C., Feb. 27.—(CP)—Police Friday are investigating the deaths of Mrs. Alex Heston and her 27-year-old daughter, he believed the death of some form of poisoning.

The mother and daughter died Wednesday within half-an-hour of each other. Stomach contents have been sent to Victoria for analysis.

Miss Leach was soon to have been married. Two brothers and a sister, now living in Edmonton, are expected here tomorrow.

Cougar Is Island's First Traffic Victim

GANGES, B.C., Feb. 28.—(CP)—Salmoner Island, a 17-mile-long "dot" off the coast of Vancouver Island, yesterday had its first traffic fatality of the year. John Chantel heard a thump and got out of his truck. A seven-foot cougar was stretched on the road.

Hold Conference Marshall Plan Aid

LONDON, Feb. 28.—(AP)—British Labor party last night called a conference of European socialist to discuss the Marshall Plan. The talks will be held at Sefton, Surrey, March 21-22.

The party said "sooner or later Russia must choose to accept it or to share the aims of United States to Europe."

Meanwhile, Russia's powerful trade unions agreed to join in a drive by the Marshall program apparently in the hope of preventing a split in the World Federation of Trade Unions (WFTU). The Russian unions made it clear, however, that they still are opposed to the Marshall Plan.

The projected trade union discussions and the Socialist talks will be separate conferences.

The Russian unions reversed previous refusal to take part in Marshall Plan talks.

Train Stops Mark End British Rule

BUENOS AIRES, Feb. 28.—(AP)—Every train in Argentina will stop at 12 p.m. March 1, 1948.

When they start running again five minutes later they will be part of the state railway system. The halt is to remind passengers of the formal ending of British-owned railroads to the Argentine government.

It will mark the end of Britain's largest investment in South America. Financially aided by two world wars within a generation, Great Britain sold the 1,000 miles of railroad for \$6,148,000 of Argentine meat and corn.

Nearly all the British part of the system is Russian gauge—five feet six inches between the rails. The reason goes back to the Crimean war, when Britain built a locomotive which her armors hoped to use on Russian railways. The war ended before the locomotive arrived and it was then sold to a group of Argentinians building the first railroad here. Most of those which followed were built to the same gauge.

\$250,000 Damage In Academy Fire

ST. ROMUALD, DUTCHESMAN, Que., Feb. 28.—(CP)—Loss was estimated at \$250,000 in a fire last night at the St. Romuald Academy of the Sacred Heart, a Catholic boys' school operated by the Sisters of the Holy Family. The school's municipality six miles from Quebec.

Livestock of some 15 carloads adjoining the school were destroyed.

The blaze originated in the attic of the three-story brick structure, apparently from a short-circuit in the wiring.

Old Maid's Extra Day Doesn't Fix Calendar

WASHINGTON, Feb. 28.—(HUP)—Leap Year may help old maids, but it doesn't make up for the calendar's shortcomings.

Although it may give spinners an extra day for proposing matrimony, it does not compensate for the day we lose every 3,300 years.

Reith E. Gould, chief of the time section of the National Bureau of Standards, thinks that some day we're going to have to change the calendar to mark the passing of time with greater accuracy.

"Even with the extra day we get from Leap Year, we do not come out exactly even on time," Gould said.

All this is despite the fact that the makers of the present-day calendar—first adopted in most Roman Catholic countries in 1582 and in Protestant countries in 1752—tried to even things up by skipping Leap Year in all century years not divisible by 400.

(This means that the year 2000 will be the first century year Leap Year since 1600.)

Gould, a quiet little man with a scholarly air, got to thinking about the calendar and its failure to measure precisely the earth's movement around the sun of timekeeping system, when he received a recent query.

FIVE SUNDAY FEBRUARY

Somebody wanted to know how long since there had been a February with five Sundays like this year. Not since 1820, Gould replied. And it won't happen again for 128 years.

The bureau's time man, Gould is concerned chiefly with the testing of all kinds of timepieces and setting time standards. The divisions of time which are broadcast by the bureau, for instance, are ticked off in his section.

But he also answers a lot of time questions such as the one from the perplexed father who reported that his 11-year-old son wanted to know what time it was at the north and south poles.

"It's no time or any time, depending on what timepiece you are looking at," Gould said. "The date is a question, too. The date runs north and south between 90 degrees north and 60 degrees south," he explained.

Low Cost Coverage For Sask. Autoists

REGINA, Feb. 28.—(CP)—Saskatchewan motorists will receive standard four-point insurance coverage on their automobiles under changes in the province's compulsory automobile insurance plan announced Thursday night in the budget speech of Provincial Treasurer C. M. Fries.

All coverage provided is public liability of \$5,000 for one person or \$10,000 for any accident and property damage of \$1,000. The plan also provides for \$100 "deductible" collision insurance for private automobiles and accident insurance against death or injury.

All operators pay \$1 annually with higher rates for chauffeurs and operators with bad driving records and car owners pay \$4.50 to \$6 annually, depending on wheelbase length of their car.

The fund is administered by the government's insurance company and Mr. Fries said equivalent coverage would cost a minimum of \$65 annually in any other province.

Signs Rent Bill

KEY WEST, Fla., Feb. 28.—(AP)—President Truman signed last night a stop-gap bill continuing rent control in the United States until April 1. The president is vacillating here.

Unity Council Asks No Arms for China

Council for Canadian Unity are protesting shipment of Canadian Munitions to China. At a recent meeting of Edmonton branch, it was decided to send the following statement to Prime Minister Mackenzie King:

"We, as citizens of Canada and members of the Council for Canadian Unity of Edmonton, protest the shipment of munitions (war materials) to China, and beg you, as prime minister of Canada, to use your influence to bring about cancellation of any contracts already made for this purpose, and to prevent any further shipments."

Council is also protesting price of Mils in Alberta and decided to submit a statement to Premier Ernest Manning asking the price has caused a drastic reduction in consumption.

Council is asking provincial government pay a three-cent-per-quart subsidy on milk for children.

Special speaker at the meeting was H. G. Glyde, professor of fine arts at University of Alberta.

Officers elected at the meeting are: president, Mrs. Reta Howan, vice-president, Charles E. Rogers, executive, Mrs. Grace Knight, Mrs. F. R. Hart, Mrs. P. Clark and G. Hunter. Members of the social committee are D. Rasegaly, Mrs. J. Mather, and Mrs. D. Hudyman.

Beet Growers Seek Cane Sugar Parity

WINNIPEG, Feb. 28.—(CP)—The Manitoba Sugar Beet Growers' Association has gone on record as supporting demands of the Canadian Beet Growers' Association for parity with foreign sugar cane growers.

The resolution was approved at a meeting here last night, attended by Charles Gladman, secretary of the national group.

"Meeting the Canadian Sugar Beet Growers' request would not cost the consumer one fraction of a cent more than the present retail price for sugar," Mr. Gladman said.

"The Beet Growers' Association producer has consistently asked for a fair price for his product."

Iron Curtain Hides Identity Douglas Group Members

Form "Own Conclusions" Says Tight-Lipped Burton

An impenetrable "iron curtain" has been thrown up by supporters of the newly-formed Douglas Social Credit Council, which has turned aside every attempt to learn the names of members of the legislative assembly or others who may be connected with the movement.

Only names mentioned in the circular letter which announced the formation of the council were those of Kenneth Burton and John Patrick Gile, both formerly associated with the publication of the Canadian Social Credit.

Mr. Burton's suite at 11402 85 street was the address given for mail addressed to the council.

Interviewed at the above address Saturday, Mr. Burton declined to give any further information than was contained in the circular letter and would not indicate when he thought it would be possible for names of the council members to be released.

"You can form your own conclusions," he said, "but I'm keeping my mouth shut." Whereupon he closed it, except for casual reference to the weather and other social pleasantries.

The council, he said, before this, disagreed with the views of the National Council of the Social Credit Association of Canada.

He drew particular attention to the paragraph in the circular letter which was a partial statement of the policy of the council.

Assembly also will be to advance Christian democracy and personal freedom. We shall carefully consider the views of the three well-known of genuine democratic political action.

Among other things, the council is also an enemy of the common law and of cultural and religious freedom.

Among other things, the council is also an enemy of the common law and of cultural and religious freedom.

Record Expansion Seen For Alberta

Industrial expansion in Alberta is running far ahead of normal, and indications point to a record year, it was learned here today.

Already in new domestic companies and incorporation of new ones is far ahead of the same period last year.

Already 59 new domestic companies have sprung up in the province this year, the majority of them directly connected with the oil industry.

Twenty-one foreign companies have registered with E. R. Hagies, provincial registrar.

This increase, it was stated, reflects the growing interest U.S. industry is taking in the oil potentialities of Northern Alberta.

Already this year eight U.S. oil companies have come into the oil field here, Coral Oil Co., Shell Oil Company, Marine Oil Co., Canadian Plains Oil Co., Great Western Oil Co., Canadian Basic Oil Co., Western Canadian Oil Co., and Texaco Exploration Co.

Most of these companies are subsidiaries of large American oil corporations and indicate that huge sums of American capital will be poured into exploration and development work in the next year.

Largest group of new corporations within the province are oil field.

Interests as Seismic Service Supply Ltd., Coast Development Ltd., Calmar West Oil Ltd., Rebec Oil Co., Canadian Drilling Ltd., Canadian American Royalties Ltd., Leduc Associated Oil Production Ltd., and British Empire Oil Development.

Major and Minor Notes

By H. D. S.

Wide range of musical endeavor will be covered in the fine variety of concerts which will be offered to the Edmonton public during March.

News this week is all concerned with activities of local groups, and it is gratifying to notice how wide a field of interests is being covered by Edmonton musicians.

The Cavendish Choir will give a concert Monday, March 3, at the Education Building on University Campus (formerly Forum School). Of pertinent interest at the moment is the announcement that a free bus service will be provided from the Varsova theatre corner to the door of Education Building with a return service after the concert, if the present inclement weather should remain with us so inconvenient will be experienced by those attending.

This choir of ladies' voices is directed by Leonard Bell. Accompanying this is by Carter who has taken over from Irene Lindskog, now Mrs. Leslie Mann of Toronto. Randall Stevens, well known British baritone who recently arrived in Edmonton, and a young pianist, Miss Lavoie, an accomplished interpreter of French Canadian folk songs and the well-known "La Route" (The Spinning Wheel), "Où ton la, la, la" (Let us be happy in this month of May), and "O' Carlin".

Many outstanding performances have been given by Cavendish Choir since its inception. It has several awards at musical festivals and twice received the Ham-Trophy for the most artistic performance in adult choir classes.

The choir has also participated in many public functions. Besides assisting at several church services.

The University Musical Club is giving a program of music by French composers tomorrow evening in Convocation Hall at 8 p.m. Those taking part will be Bob Moore, organist; Evely Lippert, flute; and Allan Bousmer, piano. Joyce Richardson will accompany Miss Smith. These performers are all University students.

Organ selections will be compositions by Debussy, Bonnet, Salome, and Beethoven. The "Suite for Organ" by Debussy has been chosen from composition of Beethoven. The "Suite for Organ" by Debussy has been chosen from composition of Beethoven.

Lytle Kesser, Illinois farmer, is shown with his Hereford steer which, he will be two years old in May, is only as tall as the yardstick. "Shirley" would be an obvious name for the stubby fellow, but—guess again—her name is "Toby".

Edmonton Teen-Age Choral Society will present a concert in the Masonic Temple Monday, March 3, at 8:30 p.m., under the direction of Mrs. D. S. McEachern. This group, consisting of some 40 young people between the ages of 14 and 20 is unique in its field. They are singing selections from light opera and early music, and a group of girls just like a melody.

Allegro selections of the Registered Music Teachers' Association announce the following program for recital by recitalists: The late Mrs. B. C. McEachern, who has been several awards at musical festivals and twice received the Ham-Trophy for the most artistic performance in adult choir classes.

Promote Fitness "North of Sixty"

OTTAWA, Feb. 28.—(BUP)—The North West Territories and the federal government have just completed an agreement under the National Physical Fitness Act for the promotion of fitness and recreation in the settlements "North of Sixty". National Health Minister Paul Martin announced today.

Under the agreement, signed on behalf of the North West Territories by the commissioner, J. K. Keenleyside, the Territories agree to co-operate with the National Council on Physical Fitness by developing and promoting fitness.

Lytle Kesser, Illinois farmer, is shown with his Hereford steer which, he will be two years old in May, is only as tall as the yardstick. "Shirley" would be an obvious name for the stubby fellow, but—guess again—her name is "Toby".

Postal Robbery Suspect Remanded To Face Charge

WINNIPEG, Feb. 28.—(CP)—Robert Fenton Balthary was given an indefinite remand Friday when he appeared in city police court on a vagrancy charge. Together with three other men, he was arrested earlier this week in connection with the \$8000 Vancouver postal station robbery last Jan. 31.

The others held, Fred Michalski, Anthony Pakovski and Allan Wierzbicki, are charged with breaking and entering the Winnipeg Savings Co. premises last Friday.

Lytle Kesser, Illinois farmer, is shown with his Hereford steer which, he will be two years old in May, is only as tall as the yardstick. "Shirley" would be an obvious name for the stubby fellow, but—guess again—her name is "Toby".

To Seek Decision On Canadian Planes

LONDON, Feb. 28.—(CP)—A cabinet decision on whether Canadian airlines should be bought for use on British air routes will be sought as a result of a Committee of Inquiry, civil aviation minister, Lord Cresswell, said today.

Government spokesmen said that neither the government nor the House of Commons should be given a Canadian passport to allow North Star type air service to be paid for out of state earnings of the planes.

Lytle Kesser, Illinois farmer, is shown with his Hereford steer which, he will be two years old in May, is only as tall as the yardstick. "Shirley" would be an obvious name for the stubby fellow, but—guess again—her name is "Toby".

Edmonton Teen-Age Choral Society will present a concert in the Masonic Temple Monday, March 3, at 8:30 p.m., under the direction of Mrs. D. S. McEachern. Sunday Services in Edmonton Churches

New Arnhem Church Is Gift of Canadians

There is a new Church at Arnhem, Holland, the gift of Canada to this Dutch town. The very name of Arnhem is written deep in the hearts of Canadians.

They recall that week in September, 1944, when every day the news worsened, and we wondered if any of those husky men "dressed in the maroon" who were the men of the First Airborne Division would ever come out of Holland.

No Canadian who lived through it will ever forget Arnhem. No family at home who lost a son there but who held that name for ever sacred. The history of World War II writes Arnhem in our hearts.

There was not much left of the town. The Germans saw to it. The Church was destroyed. And the Church was destroyed.

It is the big demand that makes the heroic spirit. It is the big task that makes the big soul—Gallantry.

While the aid of the World Council of Churches through its Reconstruction Department by the Churches of the Netherlands has been the rebuilding of the church building, but the rebuilding of Christian life and work, sometimes it is found that it is required. A wooden building, was sent to Arnhem and erected by the Canadians who added a small bell and an entrance porch.

The funds which provided it were appropriated from the contributions given to the Reconstruction Department by the Churches of the Netherlands through the Canadian Council of Churches.

It is the big demand that makes the heroic spirit. It is the big task that makes the big soul—Gallantry.

United Church

TODAY'S MESSAGE

Spiritual Careers

"See to it," said St. Paul, "that you walk with care, not as unwise, but as wise, making the most of your time." These words are a warning to those who permit worldly preoccupations to interfere with their spiritual vocations.

Every man has two careers on earth—one material, the other spiritual. A too-common concept of success is to have a full bankbook, or to occupy a place in the Who's Who of the great or famous. Material success, as such, is not to be frowned at, even saints have been rich men; some have even been rulers or kings—but if it overshadows the spiritual career, worldly success becomes merely a danger to the unwise.

We remember the story of David the workingman, who always had a full stomach and dressed luxuriously, while Lazarus went about hungry and ragged. The rich man died and went to hell—not because he was rich, but because he had let wealth rob him of the will to seek God. On the other hand, Lazarus, the faithful spiritual careerist whom the world chose to despise, found in eternity his hunger forever appeased and rags transformed into raiments of lasting glory.

Brains, good luck, or "influence" are factors that have a lot to do with success in this world. Here again, we have no valid quarrel with those who want to push ahead, to "be somebody." But if they want also to become successful in the spiritual realm, they must cultivate self-reliance, chastity, obedience and charity. These are not virtues that make millionaires but they are means by which men can expect God some day to hail them as successes.

It may be that we are exasperated at times by some of our friends or acquaintances who are certainly exemplary Christians but seem to care little whether they are "getting anywhere" in life. But here again, St. Paul chides us for our lack of spiritual interest, reminding us that "the foolishness of God is wiser than men, and the weakness of God is stronger than men." "Foolishness" and "weakness" are too often the world's words for those humble and simple virtues which lead men to rewards beyond human comprehension.

COME TO CHURCH THIS SUNDAY

NEW HAVEN MINISTER ACCEPTS CITY CALL

Rev. Edgar J. Bailey, B.D., M.A., of Montrose Baptist Church, New Haven, Conn., is expected to arrive in Edmonton by early spring, having just accepted a call to First Baptist Church here.

Formerly a chaplain with the Canadian Army overseas, he is well known to many Edmonton returned men, through his association in England, and also in Italy, with the Royal Edmonton Regiment.

Prior to the war he was pastor of the Tabernacle Baptist Church in Winnipeg.

Grace Lutheran Church, 107th Street, South of Jasper Avenue, will have a service at 11:00 a.m.—Morning Service

11:00 a.m.—Sunday School
11:15 a.m.—Morning Service
1:30 p.m.—Evening Service

CENTRAL LUTHERAN CHURCH

Criticism Aimed At Wheat Policies

Higher Payments Not To Be Known Until Present Bill Becomes Law

By D'Arcy O'Donnell

OTTAWA, Feb. 28.—(CP)—The government's wheat policies drew sharp opposition criticism in the Commons yesterday after Trade Minister Howe announced that the proposed increase in the initial wheat payment will not be made known until legislation now on the order paper becomes law.

The opposition opened their attack by criticizing the government for refusing to disclose amount of the increase planned for Western farmers. Terming this "political trickery," the members said the legislation was a typical "pre-election" measure. They went further and criticized some phases of the long-term wheat agreement with the United Kingdom and government plans for the future handling of grain.

Agriculture Minister Gardiner, in replying to the criticism, said the new bill would increase the initial wheat payment from \$1.25 to at least \$1.50 a bushel. He said the government planned to see that the Canadian farmer made as much under Canadian wheat policies as other farmers did under any other system.

GIVES MAIN POINTS

Mr. Howe, moving a resolution to a bill amending the Canadian Wheat Board Act, made these main points:

1. The government is taking the power, now held by Parliament, to make periodic increases in the initial wheat payment.

2. The government, while taking power to place the domestic marketing of barley and oats under the wheat board, will not use this authority—because of constitutional barriers—until the prairie provinces passed complementary legislation.

3. The new legislation, in giving the wheat board control over wheat products as well as wheat, will strengthen control over the basic wheat situation. The board now has no control over the movement of wheat products across provincial boundaries.

4. A pension plan which the board will be authorized to establish will be similar to the civil service pension system and will provide for equal contributions by employer and the board, with the board's contribution being regarded as an expense item.

5. A. Ross (PC—Saskatchewan) moved an amendment that would provide for introduction of three bills, on each for the initial payment, the marketing of oats and barley and the pension plan.

Mr. Gardiner expressed belief that the amendment, supported by

Bridge

By William E. McKenney

As the beginning of the year I gave you a list of safety plays. Today's hand embodies one.

In regard to the bidding, I am sure that every thoughtful West was vulnerable many good players would prefer to make a pre-emptive bid of three spades with that hand. Three spades would go down one trick, but it might keep North and South from getting to a contract of four hearts.

However, the bidding shown was the way it occurred when I saw the hand played by Maynard Adams of Chicago, a contestant in Chicago this week.

Adams (South) won the opening lead of the king of spades with

♠ 8 7 2	♥ 7 4
♦ 8 7 2	♣ 2 10 9 6
♠ A 5 3	♥ 2 10 9 6
♦ A 5 3	♣ K 4 2

Adams
♠ A Q 5 4 2
♦ K 7 8
♣ 10 9 3

Tournament—E-W vs			
South	West	North	East
W	A	2	Pass
W	A	3	Pass
W	A	3	Pass
W	A	3	Pass

Opening—A 7 2 8

his ace. Now he did not make the mistake of going over to dummy to take the heart finesse. When you have five to the ace-queen opposite three small, you should not take a heart-queen finesse. Adams wasted no time in laying down the ace of hearts, and he caught the blank king.

The point is that missing the king-jack-fine-line is a pretty hard to keep from losing two tricks, but you do not want to lose three. The lead of the ace eliminates the possibility of the blank king winning.

Adams' next play was the ten of clubs. He took the finesse East refused to win, so the nine of clubs was led. East won this trick with the king, returned the six of diamonds, and as Adams did not want to lose his ace of diamonds entry into dummy, he went up with the king.

The three of clubs was led to dummy's jack and the ace of clubs played. East trumped this with the nine of hearts and Adams discarded a diamond. East returned the five of diamonds which turned the five of diamonds which dummy won with the ace. Now the queen of clubs was led. East trumped with the ten of hearts and Adams discarded his jack of diamonds. When East returned his last diamond, Adams trumped with the deuce of hearts and laid down the heart queen, picking up East's jack.

Of course the twelfth and thirteenth tricks were won with the four and five of hearts. Thus by the safety play Adams lost of the house to the hearts and a club.

GROUP CAPTAIN S. A. CAMPBELL, centre, leader of the Australian National Antarctic Research Expedition, cheers with his men as the Australian flag is raised on Heard Island, in the Antarctic, 3,200 miles from Melbourne. Other islands in the Antarctic are the objects of current dispute between Great Britain, Chile and the Argentine. Fourteen Australian scientists will remain on Heard Island for a year. It is 25 miles long, nine miles wide and is inhabited by elephant seals, penguins, ducks and rabbits. There is hardly any vegetation and no trees.

ASKS IF VETS OUT FOR FAILING EXAMS

OTTAWA, Feb. 28.—(CP)—Maj.-Gen. G. R. Pearkes, VC (PC—Nanaimo) asked in the Commons Friday if veterans were being released as temporary letter carriers in Victoria because they had failed to pass a civil service examination. He asked the government to waive the necessity of passing exams for veterans with 12 months satisfactory service.

Postmaster General Bertrand answered that if a veteran failed an exam he was kept on for some time and given another chance to pass. If he failed twice, he had to be replaced.

Toronto Musicians For U.S. Symposium

TORONTO, Feb. 28.—(CP)—The Royal Conservatory of Music of Toronto has been invited to take part in the American Music Students' symposium to be held at the Eastman School of Music in Rochester, N.Y. March 4-7. Principal Elmore Mazzoleni announced yesterday.

Fifteen conservatory music students will attend the symposium. Among the music to be performed will be compositions by John Beckwith of Victoria.

Army Fills Breach When Operator Ill

OTTAWA, Feb. 28.—(CP)—The army reported last night that it stepped into the breach this week when a federal government telegraph operator at Atlin, B.C., was taken seriously ill. With the land line between Hazelton, B.C., and Whitehorse, Y.T., temporarily out of operation because of the Atlin operator's enforced absence from his post, army signallers at Whitehorse opened a wireless circuit to Hazelton and kept message traffic flowing.

Prevent Passage Bell 'Phone Bill

OTTAWA, Feb. 28.—(CP)—The passage of a private bill to authorize the Bell Telephone Company to increase its capitalization from \$150,000,000 to \$200,000,000, was blocked in the Commons last night by John R. MacNeil (PC, Toronto-Davenport), who termed the corporation a "gigantic monopoly."

Speaking on second reading of the bill, which already has passed the Senate, Mr. MacNeil said the company, with "no opposition whatever and full control to do what it likes," should provide better service than it now gives its customers. Its ramifications provided a "good argument" for public ownership.

F. S. Zaplatay (CCF, Dauphin) joined the debate and said the house should be careful about granting such authorization to a company which was a monopoly in at least two provinces—Ontario and Quebec.

The two speakers prevailed upon the hour set aside for consideration of private measures expired. It will come up for study again later in the session.

Camrose Carnival Opens March 3

Four Candidates Seeking Win Queen Honors

CA—Feb. 28.—Camrose Rotary Club is planning an open show March 3 and 4 at the Camrose Arena. A colorful exhibition of figure skating in singles, pairs and groups is to be staged by professional and local amateur artists.

Many well known performers, including Lillian Storo, formerly with Ice Capades of New York, Sharda Munro and Sylvia Quastrow, will be featured.

Four were nominated for carnival queen. They are Marie Shaw sponsored by the Camrose high school, Barbara Haworth, sponsored by the Camrose public school, Lila Swedberg, sponsored by the business and professional group, and Allen Jorgensen, sponsored by the Camrose Lutheran college.

Latest figures on the standing of the queens are as follows: Marie Shaw, 35.00; Barbara Haworth, 30.00; Lila Swedberg, 25.00; and Allen Jorgensen 11.00.

Edson Curling

EDISON, Feb. 28.—Edson annual open house is in full swing with several rinks from outside points taking part. Four competitions are being played off, and a portion of them have reached the finals. Weather conditions have been ideal.

Mayor of Edson

EDISON, Feb. 28.—Wilfrid Dickson was elected mayor of Edson by acclamation here recently.

Councillors elected were G. F. Stuckey, L. A. Mahon and W. H. Kan-
dustry.

Open Area Tuesday

DIDHAM, Feb. 28.—New Didsbury Memorial Arena will be officially opened on Tuesday, March 3. The opening had been postponed once to a recent cold snap.

Elect James Mudge

CONSORT, Feb. 28.—James Mudge was elected to the Consort town council recently, defeating Archie Read. Tom Carlson won over W. A. Isaac and H. C. Wilson in the hospital board election.

Conclude Bonspiel

ROCKY MOUNTAIN HOUSE, Feb. 28.—The first bonspiel, held in the new curling rink ended Tuesday, with the Heckett rink defeating the Marz quartet for first prize.

Mr. C. Heckett, George Kelly and Mrs. T. Borden were the other members of the Heckett rink. Joan Lewis, Jack Torf and Mona Ryerson curled with Marz.

Twenty-four rinks competed in the mixedspiel.

RELIEVED TO BE one of the oldest, if not oldest automobile in use in Alberta today, is the 1901 Oldsmobile pictured above. It is owned by Matt Hagel, of Camrose who is seated in the ancient vehicle. It is still in good running condition. Another of Alberta's "old timers" still in operation is the 1907 International Harvester owned by Charles O'Neill of Edmonton. The latter vehicle is being sent to the Saskatchewan government's Museum of Western Development.

'LITTLE MAN' QUILTS 36 YEARS IN PRINT

LONDON, Feb. 28.—(CP)—Sidney Strube, whose "Little Man" cartoons in London's Daily Express have been a national institution for 36 years, is retiring from the newspaper.

His Little Man, a moustached runt with a bowler and umbrella, was described by Strube as having "a little bit of everybody" in him. He endured the same difficulties as the average Briton, exchanging a bowler for a steel helmet during the war, and wearing pointed clothes as a symbol of post-war austerity.

Strube, who is known to his friends as "George," is a name which he in turn calls everybody, including his wife—is London-born.

His Little Man is expected to appear, although less frequently, as Strube will not entirely give up cartooning in his retirement.

Burnt Lake Wins Hockey Honors

RED DEER, Feb. 28.—Burnt Lake won the championship of the Red Deer Rural Hockey Association's annual tournament, and the Red Deer Board of Trade Trophy here recently by defeating Rainy Creek 4-3 in a hard-fought final. It was the fourth time that Burnt Lake had won the cup since the tournament was started in 1938.

The final game was the wind-up of a tournament in which eight rural teams took part. On Wednesday afternoon the four teams which survived the first round met in Burnt Lake. Dick Swanson, netted out for Burnt Lake in the second session, but Rainy Creek came back with a pair. Roy Duncan got the first and D. Peterson the second. There was later close checking hockey again in the third period with Arthur Halvorson scoring the only goal.

Burnt Lake—D. Johanson; C. Halvorson, A. Halvorson, E. Grimson, J. Swanson, Dick Swanson, Stan Swanson, Roy Swanson, H. Swanson, H. Johanson, H. Halvorson, Bjelke.

Rainy Creek—H. Pickering.

Burnt Lake took a 3-0 lead in the first period of the final as goals by Earl Grimson, and Arthur Halvorson came from Bjelke. Dick Swanson netted out for Burnt Lake in the second session, but Rainy Creek came back with a pair. Roy Duncan got the first and D. Peterson the second. There was later close checking hockey again in the third period with Arthur Halvorson scoring the only goal.

Big Moments in Sport

25 Years Ago

From the Bulletin Sports Files

The Monarch ladies' hockey team of Edmonton defeated Camrose ladies 2-0 at the South Side rink. Verna Moore scored both goals for the winners. The Monarchs will now go to Banff to play for the Western Canada championship.

Ice-maker Arne Young of the Arena rink reported last night that the ice was in fairly good shape considering the mild weather.

The Rev. C. F. A. Clough was elected president of the newly-formed Bonnie Dorn Cricket Club at a meeting last night. Other officers named were: W. C. Scott, vice-president; Sandford, Flowers, Newsome, and Pett, executive members.

Ike Williams Shades Cuba's Kid Gavilan

NEW YORK, Feb. 28.—(AP)—Lightweight champion Ike Williams of Trenton, N.J., won a unanimous 10-round decision in a non-title bout over Kid Gavilan of Havana, Cuba, last night at Madison Square Garden. Williams weighed 130½, Gavilan 141½.

The crowd, estimated at 13,000, was the largest since the champion almost knocked out the Cuban in the eighth round. Williams, who was on the floor for a count of eight in the first round, however, the knockout was not enough to stop him. He closed down the last four rounds, was in there punching all the way.

REFEREE RUBY GOLDSTEIN and Judge Jim Hagan had to be changed by a 54 margin, with one round won. Judge Jack O'Sullivan called it for Williams 64. The Associated Press card called it even in rounds with Williams and Gavilan. Williams was the only one to stand the strength of the knockout.

The largest crowd of the year, 1967 paying \$27,581, roared with approval through the last round when the Cuban again tried to take Williams and again he landed on Williams' jaw with his left hand. He continued to stab his talented left on the swollen left eye.

Lawson Little Trims Hogan's Lead in Open

ST. PETERSBURG, Fla., Feb. 28.—(AP)—Hogan continued to lead the 18000 35, Petersburg open golf tournament yesterday but his margin was trimmed to two strokes.

The Hawkeye, Pa., pro had an even par round of 73-72 on the 6,439-yard Lakewood Country Club course yesterday. That was his record-setting 63 Thursday gave him 135 at the halfway mark.

Lawson Little, former United States open champion, climbed to second place, two strokes back of Hogan. Little had a three-under-par 63-64 yesterday to go with his 68 Thursday for 131.

Three players, Jim Milward of Three Lakes, Wis., Pete Cowart of Ponce de Leon, Fla., and Norman Von Nils of Sydney, Australia, were tied for third place with 139.

London Sees Joe's Power and Skill

LONDON, Feb. 28.—(Reuters)—London last night caught a fleeting glimpse of the power and skill that have made and kept Joe Louis the most powerful boxer in the world.

The Brown Monday opened his month of exhibitions at the "Health and Beauty" exhibition at the London Hippodrome for which he is getting £2,000 (\$60,000).

The champion, who fought with Eddie Phillips, 37, former British light-heavyweight champion, was a real content with his kicking him with a left hook.

Phil Van Nieuwen, 25, engaged the champion as if a title were at stake and succeeded in landing two lefts and two rights to the jaw. Louis ripped in two punches to the body and a left to the jaw which clearly shook his opponent.

Plan Ring Show At Jasper Place

"Backbustlers" will have a field day in the Community Hall at Jasper Place.

Sweden Defences May Be Reviewed

Any Changes Not Directed Against Russian Neighbor

STOCKHOLM, Feb. 28.—(AP)—A Swedish military spokesman said today that any pact concluded between Russia and Sweden would force Sweden to reconsider her defence preparations.

Any changes would not be directed against Russia in particular, the spokesman said, but would be planned in the light of the fact that the military borders of one of the great powers has drawn closer to Sweden.

Plain Swedes and political observers believe Finland will be unable to cope alone with the threat.

U.K. Ration Provides Bare Subsistence Diet

By James McCook

LONDON, Feb. 28.—(CP)—Britain's diet since 1948 is scarcely more than bare subsistence, a survey by the Food Ministry today showed. The survey, which is the first since the war, shows that the average Britisher now gets only 2,700 calories a day, compared with 3,500 in 1939.

The survey also shows that the average Britisher now gets only 1.5 ounces of meat a day, compared with 3.5 ounces in 1939. The survey also shows that the average Britisher now gets only 1.5 ounces of fat a day, compared with 3.5 ounces in 1939.

It Happens Only Once in Four Years For These "Youngsters"

Sunday is B-Day For Leap Year-ers

Many Edmontonians Have Official Birthday Sunday

At the "young" age of 18, William "Bill" Watson, 10850 95 street, is relaxing with his hobbies and playing his contemporaries of 76 summers who have no holidays to help them pass their years of retirement.

How come Bill Watson is only 18? And has lived for 76 years. Well, Mr. Watson, like many other Edmontonians, is one of those who officially celebrate a birthday on Feb. 29, that is, every Leap Year.

If you're mathematically inclined you're likely to surmise Mr. Watson's age and say, "there's something wrong here, he should have had 19 birthdays." But no, there is no mistake. Mr. Watson missed a birthday when he had to wait eight years for a Leap Year at the turn of the century.

Unusually divisible by 400, years marking the turn of the century are never designated as Leap Years. So all those celebrating their birthdays Sunday, Mr. Brown has watched many changes come to Edmonton and the world of his office are decorated with many pictures of things as they "used to be." He is particularly proud of a picture of a huge drum he helped construct around a marine boiler and in which it was rolled all the way to Alaska. Another of his treasured possessions is the mounted bill with which he scored a "hole in one" at a golf club course.

Not all the birthday celebrants, however, are in the "youngster" class. Representative of the "leap" generation there is Patrick Baxter of 10828 106 avenue who will be celebrating his fourth official birthday on Natalie Joy Wittie who will

YOUNG HOARDER IS REFORMED

(AP)—Nine-year-old Harold Tinsley listened carefully last Sunday to Sullivan A. Davis, Adjutant William C. Davis, president of the Canadian Forestry Association, will talk on "Why Manage the Resources?" at the luncheon meeting of Rotary Bill 1958 will be chairman.

"Development of Some Personally Allocated" is the title of an address to be made to Kinsmen Monday in Macdonald Hotel. Speaker will be Dr. Kenneth Thompson, Edmonton, medical man.

Another meeting at that of the YMCA will be speaker at the meeting of Y's Men's Club Tuesday at 6:15 in the YMCA. Title of his address is "The Youth of Up and Down."

Mr. Struther said this extension was contemplated for last year, but manpower and material shortages caused postponement.

Meeting of Lions Club Thursday noon in Macdonald Hotel will be devoted to business affairs of the club.

Mr. Anderson said, "tousle chest X-ray of hospital admissions is helpful from a purely diagnostic standpoint, altogether apart from the finding of tuberculosis."

Woman Sought—Edmonton Herald-Crest has been asked to locate Mrs. Mary Gardner or her son, Marco.

Mrs. Gardner came to Canada in 1904 or 1905 and her last known address is in Edmonton. She is sought by a Mrs. Gertrude Brockmann (nee Langlois), of Germany.

GASOLINE PRICE JUMP THREE CENTS IN YEAR

Price of gasoline from retail suppliers in Edmonton jumped from 35.4 cents a gallon on February 13, 1947, to 37.7 cents a gallon on the same date a year later, according to a return tabled on Friday in the legislative assembly by Hon. N. E. Tanner, minister of lands and mines.

He was answering a question placed on order paper by Elmer E. Royer (CPC Edmonton) who also wanted to know price of crude oil at wellhead for the same dates.

Different qualities of oil, and different oil fields, were dealt with in the answer, showing that price varied \$1.21 to \$3.68 this year compared to \$1.20 to \$3.64 per barrel a year before.

CPR to Build New Extension

Canadian Pacific Railway will build a 70-foot extension to its express office at 109 street just this year, according to J. D. Struther, superintendent of the Edmonton division.

Tender for the construction of the addition are being called for and work on the project will start early in the summer.

Mr. Struther said this extension was contemplated for last year, but manpower and material shortages caused postponement.

Meeting of Lions Club Thursday noon in Macdonald Hotel will be devoted to business affairs of the club.

Mr. Anderson said, "tousle chest X-ray of hospital admissions is helpful from a purely diagnostic standpoint, altogether apart from the finding of tuberculosis."

Woman Sought—Edmonton Herald-Crest has been asked to locate Mrs. Mary Gardner or her son, Marco.

Denazification Nears Completion

REILIN, Feb. 28.—(AP)—Marshall Van D. Sokolovsky, Russian military governor, today denazification in the Russian zone of Germany will be completed March 10.

He said all former Nazis not classified as war criminals, who had been put out of public office or industrial posts now could equally be set free to work "by legal and honest work in the course of time."

The Russian commander said an exception would be made in the case of former police and justice officials as well as those who had held administrative positions. Special orders will deal with them.

In the United States zone denazification was estimated as 50 per cent completed. It probably will be finished this summer.

The Russians took a big step in wiping up their program last August when Sokolovsky ordered full civil rights to millions of "Aryan" Nazis in his zone.

British officials announced they completed removing Nazis from public office Jan. 1.

Airforce MLA Backs Wanham

Charges that a statement made by Harper House, Alberta Liberal leader and army representative, in connection with the Wanham land-clearing project were "nothing but political propaganda" and "pure propaganda at that, were leveled in legislature Friday by F. C. Calhoun (Air Force).

When Mr. Thompson, accused leadership of the Liberal party, his back makes Mr. Calhoun and F. J. Ward made public announcement that the new leader could no longer act as spokesman for the service group, the Air Force member said.

Mr. Calhoun said the Wanham project was a better deal to offer veterans than was offered anywhere else in Canada.

Mr. Calhoun urged the provincial government investigate Canadian defence set-up. He feared that recriminations in the permanent and reserve forces of the country were inadequate and advocated a state of complete reorganization.

City Trucker Freed Wood Theft Charge

Joe Yodlinski, Edmonton trucker, was found not guilty in supreme court by Mr. Justice Lloyd Mcintosh on a charge of stealing timber from a house of lumber, property of Chambers Brothers, Stom Lake. Discharging the accused, the judge said the continuing evidence given by Thompson and Lewis Chambers, left a reasonable doubt in his mind. He said there was no intention given by either of the truckers to the accused to deliver the lumber to the Chambers Bros. Co.

Yodlinski's civil force a charge of obtaining a load of lumber from a Westlock dealer by means of a worthless cheque. Value of this lumber is \$34.

The accused, testifying in his defense, said he sold the lumber carrying the cheque received in payment, the cheque received in payment.

Quebec Revenues At All-Time High

Record Figure of \$166,980,000 Reported in Budget By Gagnon

QUEBEC, Feb. 28.—(CP)—Quebec provincial treasurer, Omesime Gagnon reported last night in his budget speech that provincial revenues during the current fiscal year ending March 31 would reach the record figure of \$166,980,000, exceeding estimated by nearly \$20,000,000. Mr. Gagnon forecast revenue during the coming 1948-49 fiscal year of \$142,411,000 with an overall surplus of \$420,543.

The treasurer's figures for the current year were based on 10 months' actual operation and a forecast of results in the remaining two months.

His estimated Quebec province will have a surplus in the current year on ordinary account of \$42,012,000, with an overall surplus of \$146,980,000 after capital expenditures of \$44,967,000.

SURPLUS OF \$420,543
In the coming year the surplus on ordinary account is calculated at \$127,271,543 with proposed capital expenditures of \$146,980,000, bringing the overall surplus down to the figure of \$420,543.

No taxation changes were proposed.

Mr. Gagnon estimated that during the coming fiscal year ordinary expenditures will total \$142,411,000, with an overall surplus of \$420,543.

He said that out of the surplus on ordinary account in the current year the government carried out important undertakings of a permanent nature, which added to provincial assets. The government would follow the same policy in 1949-50.

TO REDUCE DEBT
He promised that during the coming year the government would reduce the net debt of the province by an estimated \$7,000,000 compared with \$8,000,000 during the current year. During three years of Union Nationale administration debt reduction amounted to \$31,000,000, he said.

He said the government would redeem next month without borrowing a \$10,000,000 loan made in 1939 and on which advances to the farm credit bureau were based.

During the war he won Victory bonds at lucky draws on two occasions, when he was employed at Aircraft Repair, Edmonton.

No-Liberal Verdict In Eastern Trial
CORNWALL, Ont., Feb. 28.—(CP)—A verdict of no libel was returned Friday by a supreme court judge in an action brought against Standard-Freeholder Limited by Mrs. Oswald Legault of Cornwall.

The case arose from a news story published by the Standard-Freeholder in April, 1947. The story said that Mrs. Legault spent a night in jail. Actually she was released shortly after she was locked up, on payment of court costs.

Costa of the action were assessed against the plaintiff.

In his charge to the jury, Mr. Justice J. Keiller Mackay said the article was a justifiable report of a judicial proceeding. He declared there was no malice intended.

Ask for Export Barley to States
WINNIPEG, Feb. 28.—(CP)—The national barley and linseed committee will ask the federal government to empower the Canadian Wheat Board to issue permits for 10,000,000 bushels of barley for export to the United States.

The resolution was approved yesterday.

S. M. Allman of Winnipeg said, moving the resolution, the "only barley we know of that was actually the property of a relatively small quantity of seed and actually the exporters are disappointed that the government did not allow some barley to go out."

E. Stewart of Toronto, appealing for high-quality barley, said Canada seed would have so much barley that it would have to look for markets in Europe.

"We will have to rebuild our markets there. We will be competing in all likelihood against countries like Czechoslovakia, Poland, Hungary and possibly Australia, who have a habit of putting good milling barley on the market."

Mr. Stewart said that the government should be allowed to export some barley to the United States.

He said that the government should be allowed to export some barley to the United States.

He said that the government should be allowed to export some barley to the United States.

Army Dentists Now Available Isolated Areas

OTTAWA, Feb. 28.—(CP)—Civilian dentists in the far north and other isolated parts of Canada where civilian dental service is not available may now receive treatment from army dental officers at a set scale fee, the army said last night.

Dental corps services will be available.

1. In any emergency—for relief of pain or for repair of dentures—when civilian facilities are not available.

2. In isolated areas where no civilian facilities exist.

3. At the request of an approved civilian dental authority who considers army assistance necessary.

Greek Police Arrest Guerilla Sympathizers
ATHENS, Feb. 28.—(HUP)—Security police today arrested about 200 persons in a roundup of men and women suspected of aiding Greek guerrillas by means of subversive activity in and around Athens.

The roundup was the first move on such a scale against leftist suspects since the Christmas holidays. Some 300 were arrested then. The roundup also covered both Athens and the nearby port of Piræus, but today's were concentrated in the capital.

Police Chief Angelos Evert said these arrested would be questioned within the next few days. What happened to them thereafter depended on the outcome of the questioning.

The capital roundup coincided with the execution by firing squad of 13 persons convicted of guerrilla activities. Courts martial sentenced a number of others to death.

Among those executed were five members of a "confidence" organization on Lesbos island. Others were convicted of crimes dating back to the civil hostilities in 1946.

Press dispatches said 350 guerrillas attacked the village of Vordonia, northwest of Sparta, and were driven out after a hand-to-hand battle. The guerrillas were reported to have used at least 50 machine guns.

Reports from Piræus said 300 guerrillas attacked the outer defenses of Ambrakia, across the Gulf of Corinth, in the area of Nafpaktos and Greek regulars had to call for help from the air force before the attackers were turned back.

PREVIOUS EXECUTIONS
The Communist manifesto was written by Karl Marx and Friedrich Engels, Germany, as a statement of principles for a European Communist league. It was published in February, 1848.

The manifesto pictures history as a series of class struggles, the latest between capital and labor. It calls for a workers' revolution to establish common ownership of the means of production.

When the Eskimos of the Canadian Arctic first saw quartz they thought it was a special kind of ice.

PRESS AGENTS are lucky guys just when they'd like to publicize singer Dorothy Dandridge, along comes something called "The Bachelors Association of America" to name her "Miss Long Year" because she's "the girl they don't like to have because to them in 1948." Ain't coincidence wonderful?

REIGN OF TERROR? YEP, GALS IN POWER

AUTHORA, Ill. Feb. 28.—(AP)—Aurora's "Ponder Puff" administration conducted a one-day reign of terror Friday—as far as the city's bachelors were concerned.

Eighty-six determined girls, 18 and up, took over this city of 50,000 in observance of Leap Year Day and ran it the way they think a city should be run.

Their first official act was to throw out a dragnet for the city's bachelors. Operating a new paddy wagon borrowed from Chicago—Aurora doesn't have one—they soon had the jail bulging with 200 bachelors.

The crime—bachelorhood. The punishment—fines consisting of sack stockings, candy and other dainties.

Police Magistrate Bob Robinson was locked up "so he can see what his own jail looks like," but he ducked to safety when the ladies opened his cell door to put in a new prisoner.

In an effort to escape a fine, Wilbur E. Esser, a bank cashier, proposed in court to Police Magistrate Irene Vaughan, and offered her a big diamond ring. She turned him down and fined him a \$600 fine.

Many unmarried men holed up for the day in locked hotel rooms.

Will Back Ottawa Grain Sale Plan

REGINA, Feb. 28.—(CP)—Anti-Saskatchewan Solidarity League, a Saskatchewan anti-Federalist group, announced today that it would support the Ottawa grain sale plan.

The group said it would support the plan because it would give the federal government more constitutional authority in control of domestic marketing of grain and barley.

But Saskatchewan felt all control should be exercised by the Canadian Wheat Board, he said.

Commenting on the announcement made in the House of Commons Friday by Trade Minister Howard that the Canadian Wheat Board would not market oats and barley until the prairie provinces passed comprehensive legislation, Mr. Noble said he could not say what future government legislation would take into consideration the Canadian Wheat Board act were passed by the federal house.

ABOVE ARE THE happy winners of the new Monarch car, Mr. and Mrs. Harvey of Edmonton taken at the time of the presentation of the new car to them by Alex Cunningham general manager of Dominion Motors Limited. The Harveys have a family of three sons. Mr. Harvey's slogan won't over 25,000 entries.

NEW AUTO REWARDS HIS SKILL Slogan Contest Winner Lucky ONE in 23,000

Winner of new 1948 Monarch four sedan automobile for the best slogan submitted in the recent Dominion Motors Limited slogan contest, in conjunction with their opening last week, is A. D. Harvey, 12145 88 street, Edmonton.

The contest was judged by advertising and public relations personnel and on members of the staff of the Dominion Motors participated in the judging.

The five other winners are: Mrs. G. H. Harvey, 7821 112 street, Edmonton; Mrs. E. B. Parnham, 10738 28 avenue, Edmonton; John, 10689 28 avenue, Edmonton; John, 10689 28 avenue, Edmonton; John, 10689 28 avenue, Edmonton.

Mr. Harvey is employed as a metal worker at Fane-Hillman Ltd., Edmonton, and is married with three children, all sons.

The car was presented to Mr. Harvey on Friday morning by Alex Cunningham, general manager, Dominion Motors.

Over 23,000 slogan cards were picked up during the four days.

What Character does your handwriting Reveal?

Are you in your proper vocation or just another square peg in a round hole?

Let Audrienne, famous handwriting analyst determine the work you are best suited for.

All you have to do is send twenty-five cents (in coin) and a stamped self-addressed envelope, together with a sample of your handwriting to Audrienne, care of The Edmonton Bulletin. You may also send in the handwriting of your husband, wife, sweetheart, friends or relatives. A small reply taken from part of a letter will be the sufficient for Audrienne to analyze.

Audrienne this week discusses the character of Thomas A. Edison, America's greatest inventor, as it is shown in his handwriting.

Thomas A. Edison

The beauty of beauty of pomp and power all that beauty all that wealth one goes alike about the secretions

The path of glory leads not to the stars

That Thomas Edison ranks as one of the greatest inventors of our times is very self-evident after examining his usual script.

The square formations of his letters and words, printed capitals are typical of the constructive-inventive hand.

A keen, critical, alert intelligence is disclosed in his small, well proportioned and properly balanced writing. The careful dotting of the "c's" and crisscrossing of the "s's" show us a painstaking, thoroughness, accuracy and patience for details.

We find here an excellent example of the vertical slant, reflecting a general lack of emotion and remarkable self-control.

Intuition is denoted by his disconnected letters, but that is blended with fine powers of deduction, thus pointing that he did not rely on faint clues.

All the characteristics that go to contribute a great scientific mind are shown in his writing: penetration, accuracy, imagination, keen vision, perseverance, originality, criticism and dexterity in method of accomplishment are all denoted.

The way "T" here shows us that our inventive genius was not devoid of wit or humor and had a lighter side to his more serious nature.

Audrienne

QUIRK OF DESTINY FOR WOMAN Might Have Been Just 26 Sun.; Instead She's 104

HEBEBE, Que., Feb. 28.—(CP)—Mrs. Emma Tryon Moir of Beche who, but for a quirk of destiny might be on the eve of her 26th birthday celebration, is 104 years old today.

This grand old lady of the "three-hundred" married community leader being a "baby" just one day. That's why she is still in the early years of her reign and when this modern historic age was beyond even the imagination of most people, Mrs. Moir has been a resident of the Eastern Townships all of her life. Her husband died in 1905.

Mrs. Moir held the position of postmistress at Granvilleville for several years and also ran a boarding house. She moved to Beche in 1915 and now resides here with her son-in-law and only daughter, Mr. and Mrs. J. A. Boule.

She enjoys good health, reads newspapers, writes a clear hand and enjoys listening to the radio. At home she looks after her own room and comes downstairs four or five times a day.

She knits steadily and last year sold more than 100 of her own knitted garments, proceeds of which she turns over to the United Church.

Of a cheerful optimistic disposition, Mrs. Moir attributes her longevity to the fact that she does not worry. Her mother lived to be 101. No special celebration is planned.

\$192,310 Hospital Aid to Pensioners

CALGARY, Feb. 28.—(CP)—During a six-month period, from June to November last year, the provincial government paid out \$192,310 in hospital grants for pensioners. Dr. M. G. McCallum, director of hospital and medical services, department of public health, Edmonton, told delegates to the Alberta Optometric Association conference here today.

In this same period \$97,627 was paid to the College of Physicians and Surgeons under the new pension services scheme.

A total of \$33,335 was paid to the Dental Association.

In an eight-month period in 1947 \$20,250 was paid out to provincial optometrists for pensioners' work. Up to the end of December, 20,442 pensioners and their dependents were registered in Alberta. Mr. McCallum revealed. This total was broken down to 15,304 old age pensioners, 445 blind pensioners and 4,693 recipients of mothers allowance.

Cut Butter Ceiling in Ontario

ONTARIO, Feb. 28.—(CP)—The prices board announced last night that effective March 1, the ceiling prices of butter in Fort William, Port Arthur, the village of Armstrong, and all parts of Ontario west of these points, will be reduced by one cent a pound.

Officials said the measure was necessary because buyers in Montreal, Toronto and other eastern points were being forced to accept delivery of butter from Western Canada at the Lakeshore price.

"With delivery at these points they were then forced to pay transportation costs to their own places of business. This practice developed because of the fact that ceiling prices were the same for the whole of Ontario and Quebec. As a result, western shippers were able to reduce their eastern delivery costs by shipping to the nearest points in Ontario."

British Gals Can Have "New Look" ... Try to Find It!

LONDON, Feb. 28.—(Reuters)—Harold Wilson, president of the House of Trade, said yesterday he does not intend to use further persuasion or force to get British women to give up the "new look."

"I am not prepared to dictate to the manufacturers of women's garments, such as I do the extravagant use of cloth in the present time for period women's fashions," he said.

Short skirts, Wilson suggested, are still available for distinguished Britons who could not find economy to moderate their tastes.

Big Canadian Navy Fleet for Training

"Saltiest Season" of Peacetime Ahead for Ships, Men of RCN

OTTAWA, Feb. 28.—(CP)—Twelve Canadian warships including nine intended primarily for training purposes, will be in action this spring and summer in what the navy says will be the "saltiest season" the peacetime RCN has ever put up.

The fleet will be composed of an aircraft carrier, a cruiser, five destroyers, three frigates and two minesweepers. The frigates, B.C. Sturges will continue her duties as a North Atlantic weather ship.

Heading the fleet vessels whose chief duty is training will be the B.C. cruiser Ontario, now in the Pacific with the destroyer Centaur and the Canadian fleet with other Canadian and British ships and will return to Esquimaut, B.C., early in May to start training duties.

Arrival is due at Esquimaut March 3 with a class of RCN cadets being trained with the Pacific fleet.

NEW DESTROYER

CHICAGO, the navy's brand-new destroyer, sailed from Halifax Feb. 4 and will reach Esquimaut in mid-March when she will "shake down" in preparation for training duties starting in April.

The carrier USS Yorktown will be in the Pacific in April in Halifax, reaching Halifax near the end of May and put to sea again in July for deck landing training of the two squadrons of the 19th carrier air group.

Abahaskan, another destroyer, will follow Yorktown in Esquimaut in mid-March. The training will be in the Pacific. Norfolk and Haida will be used for training purposes on the east coast.

Talk of Corruption in Pakistan Is Rife

KARACHI, Pakistan, Feb. 28.—(Reuters)—Whisper of corruption, an accusation which comes quickly to the lips of disgraced and discontented people, have been widespread for months in the Moslem dominated of Pakistan.

The charge has been levelled against virtually all branches of the community who have had to deal officially or unofficially with the movement or resettlement of the more than 5,000 refugees from the Indian subcontinent.

In the West Punjab the charge against corruption grew so loud that an anti-corruption committee was formed in the civil supplies department of the West Punjab government.

Addressing the inaugural meeting of the committee, Finance Minister, Mr. M. M. Khan, said: "We must attack the evil of corruption on all fronts. We must arouse the conscience of our people and bring home to them the relationship between the anti-social tendencies of individuals and the national disaster which might face all of us."

"We must tighten our control over government officials and deal with their anti-social misdeeds sternly."

In an editorial, Dawn, leading Muslim daily, commented: "The word 'corruption' has lately become large in the public mind, none, not usually given to irresponsible talk, have talked of it. Many, less accustomed to self-criticism, have offered their views, have said it more freely."

Big Part of Loans Won't Be Repaid

OTTAWA, Feb. 28.—(CP)—Agriculture Minister Gardiner said last night in the Commons that a "very considerable" portion of the loans which Canada has extended to war-devastated countries "is never going to be paid back."

Discussing government legislation to amend the Canadian Wheat Board Act, he said the greater part of the wheat being exported from Canada is going to countries which can not pay for it and most of the wheat is being sold for cash on money loaned by the government of Canada.

Natural Resources Pact Approved

HEBEN, Feb. 28.—(CP)—The Saskatchewan legislature in committee of the whole Friday approved an agreement with the federal government by which the province receives \$300,000 in final settlement of a 1933 agreement under which control of natural resources was transferred to the province.

The sum is compensation for "depletion and alienation" of resources under federal jurisdiction and was recommended in a majority report of a 1933 commission. The commission suggested payment of \$300,000 plus interest and a final agreement was signed by Provincial Treasurer C. M. Fines and Finance Minister Abbott last week.

The house unanimously asked the government to consider the "desirability of granting a substantial financial aid to the province for children" after Opposition Leader W. J. Patterson said the federal government "entirely and unilaterally" supported the motion introduced by Mr. Rater J. Friesen.

Debate was adjourned on a resolution calling for limitation of police controls and guidelines.

Married to Russian, U.S. Girl Quits Post

MOSCOW, Feb. 28.—(AP)—Annabelle Hucar, a tall, blonde American, resigned her job at the United States embassy yesterday, revealing at the same time she has been married to a Russian operative baritone for 15 months.

Miss Hucar's husband is Konstantin Laphin, about 35, who sings roles at the Moscow opera theatre.

In her letter of resignation, Miss Hucar, 33, of Clinton, Pa., said she had acquired a real understanding of Russian and that the policy of the embassy "is directed against these people."

Miss Hucar was a foreign service staff officer and administrative assistant to Melville Huggles, chief of the Moscow office of the United States information service.

Alberta Contribution Of \$150,000 is Asked

LETHBRIDGE, ALTA., Feb. 28.—(CP)—Because of transportation difficulties, two of the principal speakers scheduled to address the first annual convention of the Alberta division, Canadian Red Cross Society, failed to appear yesterday for the morning session.

Mr. W. S. Stansbury, head of the Red Cross blood transfusion service, and Dr. B. G. Townsend, senior medical officer at the crippled children's hospital in Calgary, were delayed by the storm.

Hugh Fetherling of Calgary, president of the Alberta division, was in the chair. It was announced the organization will proceed with the session of the new 150-bed hospital for crippled children in Calgary without delay.

Alberta will be asked to contribute \$150,000 to the \$300,000 which the national organization will require for this year. Northern and Southern Alberta each will be asked to raise \$75,000.

The Alberta division now has \$750,000 available in the building fund for the children's hospital. But because of rising construction costs it will be necessary to raise another \$300,000 to complete the hospital.

The meeting adjourned before deciding upon the method of raising the extra money.

The meeting approved a motion that branches raise 10 per cent of their total for their own use.

PRIME MINISTER MUCH BETTER

OTTAWA, Feb. 28.—(CP)—Prime Minister Mackenzie King, still at home nursing a heavy cold, was reported last night to be "much better." He has been confined to his home since Wednesday, although he has not been kept abreast.

Cadet Ammunition Allotment Raised

OTTAWA, Feb. 28.—(CP)—The annual allotment of a 25-calibre ammunition to each Canadian army cadet has been boosted from 100 to 200 rounds, the army said last night. A special issue will be made to cadets from the army's shooting competitions.

The meeting adjourned before deciding upon the method of raising the extra money.

The meeting approved a motion that branches raise 10 per cent of their total for their own use.

"The Ballot"

Power Tends To Corrupt And Absolute Power Corrupts Absolutely

Inherent, inviolable is the free man's right to the ballot. Through the ages, man struggled for that right... the right to express himself on the means, methods, measures and men governing him. Government by ballot, not bullets, is the Canadian way... power gained by trickery, violence or infiltration and disruption won't do for us. Too much of history highlights the grim lessons of tyranny. And, too, the Canadians' innate sense of decency, honour and tolerance make repellant the thought of government by despotism.

With the ballot, we can (and do) remove the men and parties who fail to gauge our wishes, our temper. As for the myth of the efficiency of one-party rule—well, the Canadian of tender years recalls the Nazis, the Fascists, the Trojans. The ballot is our check, our safeguard, our watchdog... the valve with which we let off steam. If government, men or measures risk us, we make the change by balloting.

We know that, inevitably, if sometimes slowly, our legislators act on our ballots. Movements for a change in legislation or legislators, like a snowball rolling down hill, gather weight, momentum, speed... and our government acts... or else!

Whether it be voting on a new floor for the high school gym... or the election of a Premier... we can be heard through the ballot. In evaluating the worth of the ballot to us as free men, let no complacency, no cynicism mark us as a people. It is said: "A cynic is a man who knows the price of everything and the value of nothing."

Let us give long, serious thought to our costly gained country... say to ourselves: I am one of 12,000,000 rulers of my country... of few men, as few lands can be said: I have

CROP PROSPECTS BIG FACTOR

Canada Busy Preparing Europe Recovery Role

By Ross Munro

OTTAWA, Feb. 28.—(CP)—A special sub-committee of the external committee is preparing estimates and elaborate statistical material here on what Canada could supply to the proposed four-year European recovery program, it was learned yesterday.

This work, cannot be completed until the end of April or May before an accurate estimate of Canada's role can be made.

The task of making this statistical estimate was undertaken following an unopposed meeting in Washington last November between a group of Canadian government economic experts and U.S. state department officials assigned to E.R.P. POSITION DISCUSSED

Canada's possible position in the program was discussed at this meeting, described here as "preliminary and preliminary," and

One government economist indicated it may take until the end of April or May before an accurate estimate of Canada's role can be made.

The task of making this statistical estimate was undertaken following an unopposed meeting in Washington last November between a group of Canadian government economic experts and U.S. state department officials assigned to E.R.P. POSITION DISCUSSED

Canada's possible position in the program was discussed at this meeting, described here as "preliminary and preliminary," and

Canada committed herself to preparing the statistical material. It still appears that Canada will make her contribution solely in food and other commodities, without supplementing them with additional loans and credits to any of the 16 E.R.P. countries.

On Palestine, the U.S. proposal, that the big five members of the Security Council decide if the situation in the Holy Land constitutes a threat to the peace, also was discussed. It poses a whole series of problems for foreign affairs experts here.

If the big five conclude it is such a threat and decide that action should be taken then the question of a UN military force immediately arises.

Important Canada Decisions Looming

Korea, Palestine, Czechoslovakia Foreign Policy To Be Studied

By Ross Munro

OTTAWA, Feb. 28.—(CP)—Canada's foreign policy makers are likely to make some important decisions within the next week on lines to be followed on Korea, Palestine and Czechoslovakia.

Mr. Pearson, under-secretary of state for external affairs, returned from the United Nations in New York to confer with his colleagues and probably the cabinet.

The Korean question looms down to whether or not Canada will withdraw from the U.N. mission sent out to the Far East to facilitate Korean independence. Russia has boycotted the commission from the start.

On Palestine, the U.S. proposal, that the big five members of the Security Council decide if the situation in the Holy Land constitutes a threat to the peace, also was discussed. It poses a whole series of problems for foreign affairs experts here.

If the big five conclude it is such a threat and decide that action should be taken then the question of a UN military force immediately arises.

FOOD-GROWING NOW IN TANKS

CHICAGO, Feb. 28.—(AP)—Dr. E. A. Sparrow, professor of Biology at Hendrix College, claims to have perfected a "simple" food-growing process he believes may be used to provide peace and plenty for the world.

It is a method of growing plants in "hydroponics" (tanks of nutrient salts) and feeding them by flowing chemical solutions through the soil to their roots.

Cancer Patients Get Financial Aid

CALGARY, Feb. 28.—(CP)—A plan to give financial aid to cancer patients was announced yesterday by H. N. Talbot, general secretary of the Alberta branch of the Canadian Cancer Society, following a recent meeting of the society's board of directors.

The plan, which will be put in effect immediately, will provide such financial assistance to patients as transportation to cancer clinics for treatment, nursing home care (for convalescence), board and room for patients who have to remain in Calgary or Edmonton while undergoing treatment at the clinic, and expenses for voice training and other rehabilitation procedure.

Mr. Talbot pointed out that an initial fund of \$10,000 had been set aside for these services, and that the work would be directed by the standing committees of the society in Calgary, Edmonton, Medicine Hat, Lethbridge and Drumheller.

Form Society

MONTREAL, Feb. 28.—(CP)—A group of undergraduate and graduate students here, who have formed the McGill Fraternity Society, will be devoted to the study of the social sciences.

The group plans to launch expeditions in the Canadian Arctic.

Strike Threat Ends

DUBLIN, Feb. 28.—(CP)—A strike threat by printers and other printing operatives was removed when the joint industrial council of the printing industry accepted recommendations giving staff workers increases of 13 to 16 percent a week.

Social Workers Gird For Possible Slump

By Kay Rex

OTTAWA, Feb. 28.—(CP)—Welfare workers are drawing up their battalions to meet the possibility of another depression.

"Public and private welfare agencies are beginning to wonder what is going to carry the load in any future economic emergency," it is pointed out in the Canadian Welfare Council, and last night in an interview prior to his departure on a month-long tour of Western Canada.

The council's executive director said the prime prospect of this tour was to learn what the agencies were doing to guard against any recurrence of the difficulties they encountered during the grim 30-year period of the depression for the maintenance of families facing hardship because of economic policies, low standards, and limiting residence regulations," he said.

As for protection given by unemployment insurance "it would be a mistake to think that unemployment insurance payments do more than partially meet today's cost of living."

"Besides, rights to insurance benefits are finally used up, and breadwinners have nowhere to turn but to private charitable agencies," said the director, who while in Vancouver will attend a meeting of the national advisory council of the Unemployment Insurance Commission, of which he is a member.

Private agencies should not be expected to give assistance to persons suffering from unemployment or other situations that may be national in extent.

The prevailing opinion among both local and provincial welfare authorities was that the maintenance of employable wage earners could be financed only by the federal government. So far nothing has been done by the government to assume this responsibility "apparently because of its inability to reach agreement with the two central provinces."

Prisoners Protest Too Much Paddling

VANCOUVER, Feb. 28.—(CP)—Charges of filthy conditions and unfair punishment of prisoners at the Okalla prison farm will be presented in a letter to the Attorney-General Gordon S. Wimmer by Harold E. Winch, CUP opposition leader in the British Columbia legislature.

Mr. Winch yesterday made public a letter, smuggled out of the prison in which it was charged conditions under which the men live culminated in a "riot" in January.

Warden J. H. Millman denied the charges and declared "conditions are 100 per cent okay, considering we have too much room."

Mr. Winch said if the charges are true he would "demand a royal commission of inquiry."

Says Soviet Greater Menace Than Hitler

WASHINGTON, Feb. 28.—(AP)—Commerce Secretary Averell Harriman pictured Russia yesterday as "a greater menace than Hitler was."

In secret testimony before a House of Representatives subcommittee on foreign affairs, Harriman said the United States must be ready to meet the Soviet threat in only a few years "until we will face a situation that is unmanageable."

Harriman's testimony, released in the subcommittee's report to Congress, came in the wake of a proposed \$250,000,000 increase in the commerce department's 1949 budget over 1948.

Without elaboration, Harriman said part would also go "for more extensive weather data required by the armed services."

ON SATURDAY, February 21, a heavy goods and mail order office of T. Eaton Co. Limited was opened at order office of J. C. Hack, formerly of Film Flon, Man., is manager of the new store, which welcomed approximately a thousand visitors on the opening day. Attending opening were: J. H. Willman, manager of the Edmonton store; H. H. Wilson, L. V. Bradshaw, J. Judge and J. G. Patterson, all department managers of the Edmonton store, and D. J. Muirhead, Winnipeg mail order merchandise office, was also present.

Father of Two Slain, Says Jury

NORTH VANCOUVER, B.C., Feb. 28.—(CP)—A coroner's jury yesterday found that Bernard J. Smith, 25-year-old father of two children, died from a gunshot wound inflicted "by a person other than himself."

William Percy, 35-year-old neighbor charged with the slaying, slaying, attended the inquest but did not testify.

The jury issued a suggestion from Coroner Harold Boyd, said the jury:

"There was no sign of struggle, and such a weapon as you have heard described can obviously be fired by only one man. It would be difficult to suggest in your verdict that death was caused by a person or persons unknown."

A witness at the inquest said Percy uttered the "get out of my house" and had been seen running from the window of a daughter's room.

Admiral FIGHTS INFLATION

YES-Admiral MAINTAINS ITS POLICY OF SERVING You..

with

IMPROVED PERFORMANCE

Base circuit for extreme sensitivity, razor edge selectivity. Superior long distance reception. Greater volume. Adjusts in a jiffy for playing ten 12-inch or twelve 10-inch records automatically.

IMPROVED STYLE

Gracefully styled in one piece molded mahogany plastic. Satin-smooth finish takes a perfect polish... resists scratches and scuff marks.

IMPROVED TONE

Broad power output gives improved tone with increased undistorted sound output. Latest audio tubes and advanced circuit produce final reproduction of unwavering quality and tonal clarity.

ENGINEERS

THE Teenie Weenies hadn't seen Skippy, the chipmunk, since Christmas. They knew that Skippy usually slept through most of the Winter, deep down in his hole under an old stump. They knew, too, that Skippy always put away various seeds and nuts for his food supply during the Winter. They had seen several little storage tunnels branching off from the main tunnel to Skippy's nest of grass and leaves. Those tunnels were fairly bursting with a supply of food. The Teenie Weenies never disturbed the chipmunk when once he had retired for the Winter. Skippy sometimes came out for a few minutes during a spell of nice weather, but it was early Spring before he came out regularly.

One morning the Teenie Weenies were surprised to see the chipmunk several weeks before his usual time of coming out of his hole. Skippy explained to the Chinaman, who understands bird and animal talk better than the rest of the little people, that the tunnel had caved in on his last remaining tunnel or food. The earth kept falling in as fast as he could dig it out, and the Weenies to help him save his way.

The Teenie Weenies are always ready to help Skippy because they help them when they need him. An excellent engineer, went at once to the hole and examined the damage.

"This cave-in will have to be shored up," he announced after his inspection.

"What does 'shored' mean?" asked the Dunce.

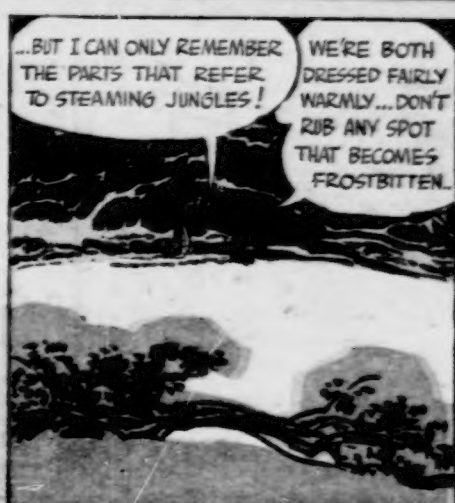

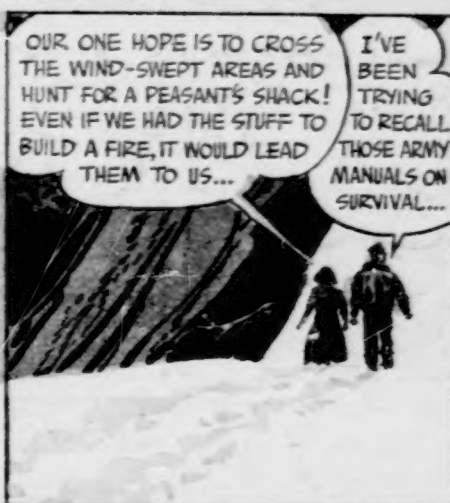

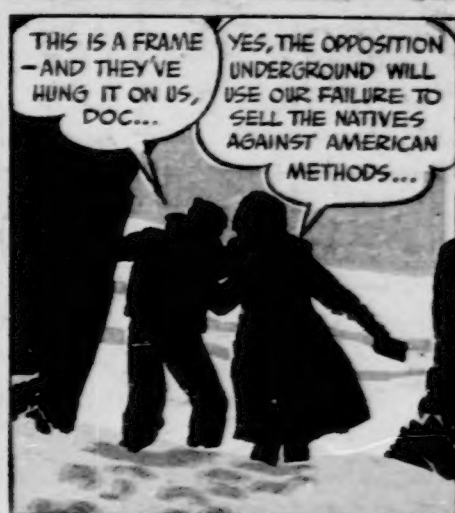

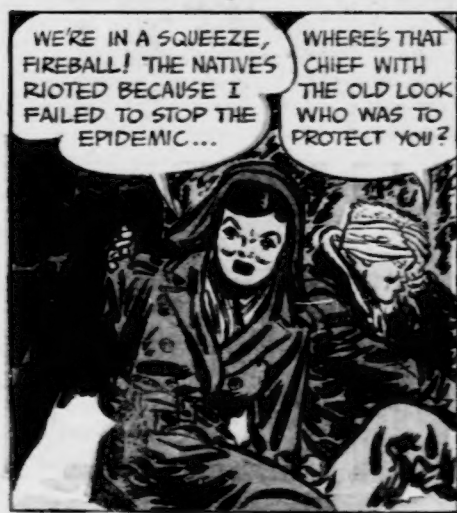

"It means that we will have to bring in boards and wall up the side of the tunnel as we dig the earth away. If we don't stop the earth from running into the tunnel, it will undermine some of those big rocks and they will fall in and completely block the hole," explained the Turk, pointing to the big stone around which Skippy had dug his hole.

The men carried a lot of boards, leenie Weenie tools and several cherry seed ramps down into the chipmunk's deep, dark hole. Then they began to dig

carefully. As they removed the earth, they set up boards and in that way they were able to carry out the dirt without undermining the big stones. Slippery respect carry out the earth in a basket the Icenie Weenies made out of half an English walnut shell. The Chinaman carried his loads in Chinese style by placing a naxenur shell basket on each end of a toothpick which he then balanced on his shoulders. When the work was finished Slippery's nose was red and angry and very much sater to live in.
